I am #68 here at the DEC hearing in Ithaca. All of the people before + after me are probably here to protest the proposed fracking. These numbers should say more than I can in these few lines. Ithaca doesn't want fracking chemicals in our water supply. Period.

I understand that my comments will be submitted to the Department of Environmental Conservation as an official public comment in response to the NYS Department of Environmental Conservation's draft Supplemental General Environmental Impact Statement regulating the use of hydrofracturing in the natural gas drilling process.
