Re: Excellus BlueCross BlueShield/ProAct Prescription Benefits Manager
Date: November 2, 2012

Tompkins County has scheduled employee information sessions with Excellus BlueCross BlueShield and ProAct. Effective January 1, 2013 ProAct will be the new Prescription Benefits Manager for the Tompkins County Consortium.

The scheduled information sessions allow the vendors an opportunity to discuss the implementation, transition and employee/member impact.

The sessions listed below are open to all employees regardless of work location or bargaining unit. If you plan on attending an information session, you must have supervisory approval if attending during scheduled work hours. If you are unable to attend any of the sessions below and would like to discuss your benefits, Employee Benefits Day is November 15, 2012 at the Human Services Building. Please share this information with co-workers who may not have access to email.
