

Organization Name:	Swidjit
Web Address:	http://www.swidjit.com
Project 1: <i>Junior Web Developer</i>	
Project Description: Swidjit is an emerging social media designed to serve as a foundation for thriving, just communities. Swidjit aims to harness the power of the mobile, social web to provide users with unprecedented access to local resources and opportunities. Swidjit will serve as a platform for the local economy, and a hub for community information, events, and conversation. By making it easy to discover and access the abundance of goods, skills, experiences, ideas, and people around us, Swidjit will help facilitate a more collaborative, resourceful society. Swidjit is a 16-month old web startup based in Ithaca.	
Sustainability Intern's Role: To assist other developers in developing new features and improving existing ones.
