INTRODUCTION

In May 2015, Tompkins County and the City of Ithaca were welcomed into the AARP Network of Age-Friendly Communities, an initiative of the World Health Organization intended to help communities prepare for rapid population aging. The Age-Friendly Network helps participating communities become great places for all ages by adopting such features as safe, walkable streets; better housing and transportation options; access to key services; and opportunities for residents to participate in community activities.

In 2017 New York became the first Age-Friendly State in the U.S. In 2018 NYS issued Executive Order 190 to incorporate health across all policies into state agency activities leading to a public-private partnership between the New York State Office for the Aging (NYSOFA), the Department of Health (NYSDOH), the Department of State (NYSDOS), and the Health Foundation for Western and Central New York (HFWCNY) to award communities grants to support Age-Friendly efforts. The New York Academy of Medicine (NYAM) joined these organizations to create a learning collaborative for grantees of the New York State Age-Friendly Planning Grant the HFWCNY's Health and Age Across All Policies Centers for Excellence Grant. The overall goal of this project is to institutionalize a Health & Age Across All Policies (HAAAP) focus at the county-level. In November 2019, Tompkins County was one of three New York State counties in awarded the HFWCNY's Health and Age Across All Policies Centers for Excellence Grant. Thus began the Tompkins County Age-Friendly Center for Excellence (TCAFCFE) which builds on a nearly ten-year foundation of Age-Friendly work in the region.

The TCAFCFE Statement of Purpose

The Tompkins County Age-Friendly Center for Excellence (TCAFCFE) is one of five regional Centers in New York State funded to support the NYS Health Across All Policies Initiative by promoting Age-Friendly, the NYS Prevention Agenda, and Smart Growth principles. The primary goal of the Tompkins County Age-Friendly Center for Excellence (TCAFCFE) is healthy aging, which means transforming the social and physical environment to support health and well-being for community members across the lifespan. This goal is achieved through cross-disciplinary organizational partnerships and stakeholder input. The TCAFCFE works directly with County agencies, non-profit organizations, academic institutions and private partners to advance systems change and solutions at the county level, and to share best practices state-wide.

THE AGE-FRIENDLY WORKSHOP SERIES

In an effort to raise awareness and understanding of what Age-Friendly is and isn't, the Tompkins County Age-Friendly Center for Excellence created a workshop series to inform citizens, municipalities, agencies and businesses and demonstrate its relevance to the greater community.

This toolkit is a resource for communities to create and deliver a series of workshops to increase awareness of Age-Friendly practices and increase community involvement to make the community more livable for people of all ages.

WORKSHOP SERIES PURPOSES

The Age-Friendly Workshop Series can be used to:

1. Explain what Age-Friendly is/isn't and address misconceptions
2. Demonstrate the relevance of Age-Friendly practices to the community through demographics, trends, and economic data
3. Provide a context for Age-Friendly via the history of international (WHO), national (AARP), and local efforts
4. Identify barriers to implementing Age-Friendly practices
5. Identify and increase involvement of community partners
6. Demonstrate existing programs, policies, and places which already exist in the community and exemplify Age-Friendly principles
7. Identify and promote funding opportunities
8. Provide a common foundation and starting point for consensus-building workshops
9. Provide opportunities to share resources, integrate Age-Friendly principles and policies in local governance, businesses and other agencies
10. Frame Age-Friendly in positive ways to emphasize benefits to residents across the lifespan as well as to municipalities and community organizations

SAMPLE INVITATION TO SPEAKERS

Dear _____,

The Tompkins County Age-Friendly Center for Excellence is excited to present a special county-wide workshop series. In 2015, Ithaca and Tompkins County became part of the Age-Friendly Communities program. This began a 5-year plan to help make Ithaca and the county better places to live and work for people of all ages. In 2019, the Tompkins County Office for Aging was awarded a grant from the Health Foundation of Western & Central NY to create a regional Age-Friendly Center for Excellence. The intention of this grant is to further the Governor's Executive Order to promote Health Across All Policies, the Prevention Agenda, and Age Friendly Livable Communities. For more information on our efforts, please visit: <https://www2.tompkinscountyny.gov/cofa/age-friendly>

The goals of the Tompkins County Age-Friendly Center for Excellence's work are to raise awareness about the Center, to address misconceptions regarding Age-Friendly, to help community agencies and organizations to see the relevance to their work, and to increase participation and use of Age-Friendly as lens in all the work that's done.

To that end, we are holding a four-workshop webinar series in 2021. We would love to have you join us as a speaker in one of the workshops. May's workshop title, tentative topic and timeframe is listed below:

#4 MAY Age-Friendly for Community Health + Wellness

10 Intro + Overview (speaker)

10 Social Determinants of Health (speaker)

10 HAAAP, CHIP + CHA (speaker)

10 Racial Disparities, Outcomes and Health Equity (speaker)

10 Achieving Youth Results and Wellness (speaker)

25 Panel Discussion w/prompts, then expanding to Q & A

10 Closing Remarks for Workshop Series + Next Steps (speaker)

85 minutes (invite for 90)

By Friday, March 19th please email me back and let me know if you can participate. Please complete this doodle poll on dates that you would be available in May. [INSERT LINK] We will then use this information to select the dates and confirm them with you. Thank you for your consideration.

Sincerely,

SAMPLE INVITATION TO ATTENDEES:

Dear Community Partner,

Last year, Tompkins County received a grant to create one of the first Age-Friendly Centers for Excellence in the country. As part of our efforts, we are excited to be offering a virtual workshop series "Age-Friendly + Tompkins County: A Unifying Framework for Post-COVID Recovery." The series will begin with our first webinar on Feb. 17 and continue with one webinar per month through May.

The workshop series is to help all stakeholders in the community understand what Age-Friendly is (hint: it's not just for older adults) and how it is relevant to every age group, agency, and organization in our county. We will also be showcasing our efforts in Best Practices and share relevant information which you can apply to your work.

We hope you will join us in these important community events and share this information with your colleagues and constituents.

The invitation is attached to this email and also can be found at _____ where you will find a registration link, as well as a link to our training webpage _____ where you can find more information on the agenda, the speakers, and the overall series.

We hope to see you there.

Thank you,

Age-Friendly Center for Excellence Announces 4-part Virtual Workshop Series

(Ithaca, NY- January 26, 2021) The Tompkins County Age-Friendly Center for Excellence will be holding a 4-part virtual workshop series entitled "Age-Friendly and Tompkins County: A Unifying Framework for Post-COVID Recovery". These workshops will be held once a month from February through May 2021.

As COVID has strained the financial and human resources of community agencies and organizations, the Age-Friendly Communities framework can be a vehicle for long-term recovery. Starting with the needs of older adults (a large and diverse group encompassing people from 50 to over 100 years old) it unifies seemingly disparate and competing demands by finding commonality of need across all age groups. Age-Friendly can help retain this population to successfully age in place and in community, reduce unnecessary demands on services, while meeting the needs of all ages to create solutions that truly work for the community.

The first workshop entitled "What is Age-Friendly Anyway? How it Benefits Agencies, Residents, Visitors, and Businesses" will be held on February 17, 2021 from 10:30am to 12:00pm. To register please visit [INSERT LINK]
