8	Promote Well-Being and Prevent Mental and Substance Use Disorders	Focus Area 1: Promote Well-Being	<b>Goal 1.1: Strengthen opportunities to build well-being and resilience across the lifespan</b>	Objective 1.1.2 By Dec 31, 2024, reduce the [rate] of adults that report 14 or more days with poor mental health in the last month by 10% Objective 1.1.3 By Dec 31, 2024, reduce the [rate] of youth grades 9-12 who felt sad or hopeless [by 10%], based on Communiyies that Care survey (bi-annual)	Poverty	Implement evidence-based home visiting programs. (p 211)	# of families served by SafeCare Select # of families reunified after completion of SafeCare # confirmed CPS + substantiated allegations after prevention services	Convene a pilot working group to determine structure and participants. Workgroup may include reps from MOMS, SafeCare, COFA, MH, DSS, Youth Services to review existing home visiting programs and consider how they can be linked through social determinants of education and community cohesion. Expand SafeCare beyond mandated to non-Family Treatment Court clients through outreach and education of partner agencies.	Workgroup: Utilize a tool such as ripple effect mapping to determine community support networks and inform a coordinated referral/outreach process, implement with at least one partner. Assess expansion of SafeCare to non-Family Treatment Court clients.	Implement the coordinated referral process with at least 2 partners. Assess/evaluate the coordinated process.	Local health department	<b>SafeCare®</b> is an evidence-based, behavioral parent-training program for parents of children ages 0-5 who have been reported for child neglect. The program is delivered by Community Health Nurses via 18 weekly home visits covering three scripted educational modules: Health, Safety, and Parent-Infant or Parent-Child Interaction. In its first three years of implementation, SafeCare® has improved the family reunification rate from 42% to 82%. Due to the success of this program, the Health Department is expanding the program to more families in Tompkins County. Other partners: CHS, DSS, Collaborative Solutions Network, Youth Services, TC Mental Health, Learning Web, TC Action, Child Development Council, WIC, Children with Special Care Needs, k-12 Schools and daycares.
9	Promote Well-Being and Prevent Mental and Substance Use Disorders	Focus Area 1: Promote Well-Being	<b>Goal 1.1: Strengthen opportunities to build well-being and resilience across the lifespan</b>	Objective 1.1.2 By Dec 31, 2024, reduce the [rate] of adults that report 14 or more days with poor mental health in the last month by 10% Objective 1.1.3 By Dec 31, 2024, reduce the [rate] of youth grades 9-12 who felt sad or hopeless [by 10%], based on Communiyies that Care survey (bi-annual)	Poverty	Implement evidence-based home visiting programs. (p 211)	# of nurses, social workers embedded or available to assist housing agencies/property managers	Included in the 2020 Priority Plan/ Local Service Plan (Mental Health). Visiting Nurse Service (VNS) of Ithaca and Tompkins County - on-site Nurse Care Manager Program in 9 affordable housing sites (1100 low-income elders served) in three counties. Currently in Ithaca Housing Authority-Titus Towers in Tompkins County. October 2019: published article, "Bridging Medical Care while Addressing Social Determinants of Health in Low Income Senior Housing," presented at NYS Society of Aging conference.	Continue to seek sustainable funding to expand program. Grant to expand program in Tompkins County to Conifer complexes at Conifer village, Conifer Meadows, Ellis Hollow and the Schoolhouse in Groton.	Secure sustainable funding to continue program. Evaluate program and share a model that can be replicated in other housing settings to include other partners (such as Ithaca Neighborhood Services, TC Action)	Other (please describe partner and role(s) in column D)	Visting Nurse Services (VNS): Starting in 2015, has received three Innovation Grant Awards from Care Compass Network/DSRIP, program aligns with DSRIP goals. VNS Nurse Care Manager Program (NCMP), nurses are embedded in low-income housing authorities - 9 buildings in 3 counties, including Tompkins. Emphasis on providing care that allows elders to stay at home, model to address uncoordinated and fragmented care, evaluation to demonstrate impact on social determinants of health (health literacy, stress, isolation, nutrition, and transportation) Partners: TCMH: this intervention is included in the 2020 Local Services Plan INHS, Continuum of Care, Planning Department: Housing Strategy, COFA, Love Living at Home
10	Promote Well-Being and Prevent Mental and Substance Use Disorders	Focus Area 1: Promote Well-Being	Goal 1.1: Strengthen opportunities to build well-being and resilience across the lifespan	Objective 1.1.2 By Dec 31, 2024, reduce the rate of adult New Yorkers that report 14 or more days with poor mental health in the last month by 10%.	Poverty, lack of social support, isolation	Enable resilience for people living with chronic illness by increasing protective factors such as independence, social support, positive explanatory styles, self-care, self-esteem, & reduced anxiety [p211]	# of participants ages 40-65 in Harmonicas for Health # of locations (rural and underserved).	2019: 3 six-week courses completed, about 50 participants	Complete at least 4 courses, hold at least one course in a rural location, initiate support group at local hospital Continue discussions of pulmonary rehabilitation at local hospital and plan to integrate H4H into hospital setting as an ongoing maintenance component. Revisit development of a long-term follow-up tool (6 months or more for participants), specifically about social support.	Initiate hospital maintenance program, along with at least 4 community courses completed. Initiate long-term follow-up.	Local health department	Harmonicas for Health is a community-based program adapted from the COPD Foundation. H4H is a 6-week course that offers peer support and education to those living with a chronic respiratory disease. Participants learn to play the harmonica to practice breathing exercises. Partners: Cayuga Health System/CMC
11	Promote Well-Being and Prevent Mental and Substance Use Disorders	Focus Area 1: Promote Well-Being	Goal 1.1: Strengthen opportunities to build well-being and resilience across the lifespan	Objective 1.1.2 By Dec 31, 2024, reduce the rate of adult New Yorkers that report 14 or more days with poor mental health in the last month by 10%.	Severe/persistent mental illness	Enable resilience for people living with chronic illness by increasing protective factors such as independence, social support, positive explanatory styles, self-care, self-esteem, & reduced anxiety [p211]	# of PROS participants # successfully transitioned to less intensive services # of opportunities to provide community education on the PROS model	60 PROS participants			Other (please describe partner and role(s) in column D)	TC Mental Health offers Personalized Recovery Oriented Services (PROS), a comprehensive recovery oriented program for adult individuals with severe and persistent mental illness. The goal of the program is to integrate treatment, support, and rehabilitation in a manner that facilitates the individual's recovery.
12	Promote Well-Being and Prevent Mental and Substance Use Disorders		Goal 1.1: Strengthen opportunities to build well-being and resilience across the lifespan	Objective 1.1.2 By Dec 31, 2024, reduce the rate of adult New Yorkers that report 14 or more days with poor mental health in the last month by 10%.	Poverty, lack of social support, isolation	Enable resilience for people living with chronic illness by increasing protective factors such as independence, social support, positive explanatory styles, self-care, self-esteem, & reduced anxiety [p211]	# of intergenerational events/community cafes	December 2019: Intergenerational Programs training with a professor of intergenerational programs and aging and Penn State University.	As part of Achieving Youth Results (AYR) and the Dec 2019 Intergenerational training, a variety of stakeholders will be linked together on specific projects that were brainstormed during that training and offered further support/resources from the trainer and Penn State. Projects include opportunities for intergenerational components in academic focused tutoring, recreational opportunities, food/nutrition, and shared use of	Implement at least 2 of the strategies/projects developed in Year 2.	Office for the Aging	County Office for the Aging and Youth Services are collaborating on planning intergenerational events across the county (AYR - Achieving Youth Results) County Office for the Aging: Age-Friendly Plan, Aging Center for Excellence Other Partners: Lifelong (Aging Mastery course), Finger Lakes Independence Center (FLIC), Ithaca College Gerontology Institute
13	Promote Well-Being and Prevent Mental and Substance Use Disorders	Focus Area 1: Promote Well-Being	<b>Goal 1.2 Facilitate supportive environments that promote respect and dignity for people of all ages</b>	Increase % of patients who receive follow-up mental health services by 15%.
