<sup>1</sup> Indicators are not mutually exclusive. Decedents and patients may have multiple substances in their system. Thus, overdoses involving heroin and overdoses involving opioid pain relievers will not add up to the overdoses involving all opioids.

<sup>2</sup> This indicator includes pharmaceutically and illicitly produced opioids such as fentanyl.

s: Data for indicators related to hospitalizations and emergency departments are suppressed for confidentiality purposes if there are fewer than 6 discharges.

**Tompkins County: Unique clients admitted to OASAS-certified chemical dependence treatment programs <sup>1,2</sup>  
(Preliminary data as of July, 2018 - subject to change)**

Indicator	2016				2017					2018
	Apr-Jun	Jul-Sep	Oct-Dec	Total	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	Total	Jan-Mar
Unique clients admitted for heroin	133	107	90	321	100	86	100	79	281	94
Unique clients admitted for any opioid (incl. heroin)	159	140	123	416	127	114	128	110	366	112

OASAS: Office of Alcoholism and Substance Abuse Services

<sup>1</sup> The number of unique clients admitted per year does not equal the sum of the unique clients admitted each quarter. This is because an individual client can be admitted to treatment in more than one quarter during the year.

<sup>2</sup> Clients may have heroin, other opioids, or any other substance simultaneously recorded as the primary, secondary and tertiary substance of abuse at admission.  
s: Data for indicators are suppressed for confidentiality purposes if there are fewer than 6 clients.

<sup>1</sup> County numbers displayed in the table represent only naloxone administration events reported electronically; therefore, actual numbers of events may be higher.

<sup>2</sup> EMS reporting may have been affected by a change in documentation systems used by EMS agency/ies serving the area. Counts may include additional cases compared to previous reports, if applicable. In addition, some counts may have decreased compared to previous reports due to an improvement made in the deduplication of records. Please see the Introduction and Method sections for more detail about these potential changes.

<sup>3</sup> Numbers displayed in the table represent only naloxone administration reports submitted by law enforcement or by registered COOP programs to the NYSDOH AIDS Institute. The actual numbers of naloxone administration events may be higher.
