DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES
	2014 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Tompkins County, New York			
	Estimate	Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	38,120	+/-1,565	38,120	(X)
Family households (families)	19,528	+/-1,733	51.2%	+/-4.5
With own children under 18 years	8,598	+/-1,398	22.6%	+/-3.6
Married-couple family	14,245	+/-1,575	37.4%	+/-3.9
With own children under 18 years	5,025	+/-1,074	13.2%	+/-2.7
Male householder, no wife present, family	2,173	+/-873	5.7%	+/-2.3
With own children under 18 years	1,682	+/-832	4.4%	+/-2.2
Female householder, no husband present, family	3,110	+/-665	8.2%	+/-1.8
With own children under 18 years	1,891	+/-531	5.0%	+/-1.4
Nonfamily households	18,592	+/-1,998	48.8%	+/-4.5
Householder living alone	13,145	+/-1,956	34.5%	+/-5.0
65 years and over	3,303	+/-753	8.7%	+/-1.9
Households with one or more people under 18 years	9,138	+/-1,447	24.0%	+/-3.7
Households with one or more people 65 years and over	8,594	+/-510	22.5%	+/-1.3
Average household size	2.39	+/-0.08	(X)	(X)
Average family size	2.95	+/-0.19	(X)	(X)
RELATIONSHIP				
Population in households	90,932	+/-1,904	90,932	(X)

Ukrainian	690	+/-425	0.7%	+/-0.4
Welsh	1,037	+/-613	1.0%	+/-0.6
West Indian (excluding Hispanic origin groups)	647	+/-508	0.6%	+/-0.5
COMPUTERS AND INTERNET USE				
Total Households	38,120	+/-1,565	38,120	(X)
With a computer	33,903	+/-1,817	88.9%	+/-3.1
With a broadband Internet subscription	31,036	+/-1,636	81.4%	+/-2.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see

Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Due to methodological changes to data collection that began in data year 2013, comparisons of language estimates from that point to estimates from 2013 forward should be made with caution. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

The category "with a broadband Internet subscription" refers to those who said "Yes" to a DSL, cable, fiberoptic, mobile broadband, satellite, or fixed wireless subscription.

While the 2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2014 American Community Survey 1-Year Estimates

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
