Staff/Project Reports:

Paul Gier, Angel Hinickle, and Mike Hall provided written reports and they are attached. In addition, each reviewed the work they have been performing. A. Hinickle also gave a Power Point presentation on the WQP project at Trumbulls Corners. She described the project, provided pictures, and shared some of the challenges encountered along the way. The weather hindered some of the work, the estimated amount of material needed was not adequate, and additional work needed to be added to the contract. Currently, the Contractor has moved off of the project until it is time for the final phase of work. TCSWCD was able to acquire some native seed provided by Cornell Botanic Gardens. In addition, TCSWCD received an additional invoice from the Engineer on the project above the contract amount. It was decided by the Board to request itemized detail of the extra work performed before the additional work is approved. TCSWCD will request the detail. All in all, TCSWCD is pleased with how the project turned out to date. It was also discussed the possibility of A. Hinickle giving the same presentation to the Town of Newfield.

Old Business:

- 2017 Part C project updates. Some ideas for using the Part C state aid are:
  1. Purchase Equipment. Research on purchasing a no-till drill for approximately $20,000 to $25,000 is being done. TCSWCD would like to do some demo days in the field and will let the Board know when.
  2. Purchase a boat for water quality monitoring. Last year, TCSWCD relied on the City of Ithaca’s boat.
  3. Create a cold storage area for all of TCSWCD’s equipment so it can be protected from the elements. Everyone will continue to work on the feasibility of these ideas and will provide quotes from vendors.

Angel Hinickle departed at 4:45pm.

New Business:

- **RESOLUTION 2017-27 – Hydrilla Water Quality Contract Approval.** J. Dennis made the motion to approve, D. Carey seconded. One bid was received and accepted. A vote was taken and the adoption of Resolution 2017-27 was accepted. Motion carried.

Negley reported the Finger Lakes Land Trust was unable to hold the easement as they are the land owners. J. A vote was taken and the adoption of Resolution 2015-54 – Amended and Resolution 2016-43 - Amended were accepted. Motion carried.

- **RESOLUTION 2017-32 – Entering into Contract Agreement with FLOWPA as Subcontractor for FWS ANS FY16 (Hydrilla).** D. McKenna made the motion to approve, A. Teeter seconded. No discussion. A vote was taken and the adoption of Resolution 2017-32 was accepted. Motion carried.

- **2018 Budget Introduction.** J. Negley has begun the process of preparing the 2018 District Budget and provided some highlights: In 2018, Part C funding will be similar in amount to that of 2017 and should be substantial. J. Negley has reached out to Jennifer Clifford, NYS SWCC, to see if the District would be able to purchase a culvert in 2017 but have it installed in 2018. She advised the purchase/installation timing would be fine as long as it was well documented; County OTR’s may be possible, however the budget may be affected by the elections this fall; Vehicle upgrades are due and they should be rotated on a regular basis; The District is pursuing the possibility of hiring an engineer on a part time basis (no benefits) beginning in 2018. Many of the District’s possible future projects will be required to have engineering services. This is especially due to the new TMDL program. The Finance Committee will schedule a time to meet to discuss this further.

There were no changes or additions to the agenda.

A. Teeter moved to approve the minutes as presented. D. McKenna seconded. All in favor. Motion Carried.

Reports of Other Agencies:

J. Doty brought CRP reenrollments which were complete and approved in July, however, they lacked signatures from TCSWCD. Jen suggested they might try to do a Grassland CRP for a property on Route 89. Some Farms did not reenroll or weren’t eligible. Two properties needed additional tree plantings to bring them up to specifications and one Grassland CRP in Tompkins County withdrew. Jen also advised that the ARC Commodity Program ended August 1st.

J. Olsen advised their office was working on Conservation Stewardship Programs (CSP) and are in the project design phase. They should have contracts by November.

J. Doty departed the meeting.

C. Stannard introduced herself and M. O’Laughlin. Her office has completed TCSWCD’s annual audit and a draft copy of the Communication Letter, Executive Summary, Financial Report, and Management Comment Letter were distributed to the Board. C. Stannard reviewed the Executive Summary highlights:
   - some adjustments made were due to reporting requirements
   - revenue was in excess of expenditures
   - there is restricted cash due to grants
   - revenue is steady even with the addition of another salary
   - there is not a lot of excess revenue to support programs
   - general guidelines for the fund balance is a 10% to 15% increase from the subsequent year

M. O’Laughlin reviewed the audit process, management comment letter (two items were reviewed). It was also suggested that the wording of the minimum balance requirements in the Fiscal Policy be revisited & revised.

A final audit report should be available soon.

Staff/Project Reports:

A. Hinickle provided an update on the Trumbulls Corner Road Project. The end of Hubbell Drive still needs to be completed. The Contractor should be beginning in two weeks. There is a lot of erosion and structures are exposed. NYSDEC and the FWS visited the site and want it repaired. The Engineer was asked for a remedy to the situation but NYSDEC & FWS are not confident the proposed modifications will work. The Contractor is not confident either. The repair may cost at least $25,000 in rock alone. The permit is valid until October 1st. TCSWCD will work on a solution with the Engineer, Contractor, FWS, and NYSDEC to figure out what measures should be taken and then will figure out the funding aspect of the additional work.

P. Gier let everyone know two STAIEP projects have been completed and approvals would be needed next month for their payments.

McKenna made the motion to approve, J. Dennis seconded. A vote was taken and the adoption of the Project Ranking Tool and budget was accepted. Motion carried.

New Business:

Teeter seconded. P. Gier has identified three farms who have agreed to participate and the work shall be completed to NRCS standards. A vote was taken and the adoption of Resolution 2017-38 was accepted. Motion carried.

Introduction

J. Negley introduced Thomas Mallory, a candidate for the Water Resource Engineer position vacancy. T. Mallory described his past experience including 13 years with Delaware County Soil and Water Conservation District from which he retired on December 31, 2016. His focus has been on streambank design and the supervision of data gathering for streams. He was involved with flood incidents and his post flood stream rehabilitation program was accepted by NYSDEC and his course has been adopted statewide. Tom is currently becoming familiar with Tompkins County and looks forward to learning more.

T. Mallory departed at 1:26pm.

Reports of Other Agencies:

P. Barry reviewed his written report and it is attached.

J. Negley reviewed NYS SWCC’s written report and it is attached. TCSWD’s Annual Plan of Work for 2018 will be presented at the next Board Meeting for review and approval. NYS Part B’s application is due on November 1st and will also be presented at the next Board Meeting.

On September 26th, J. Negley will be representing TCSWCD at the Tompkins County Legislature Budget Hearing and will be presenting the 2018 Draft Budget.

On September 21st, A. Hinickle will be moderating a session entitled “Emerging Challenges in The Watershed – Streams” at the USC Watershed Forum in Binghamton.

Financial Report:

Hinickle reported on the difficulties with the YUMA equipment breakdowns and subsequent attempts trying to get it repaired. J. Negley reviewed the bank account balances with the Board as transfers will need to be made soon. A vote was taken and the financial reports were approved. Motion Carried.

D. Carey moved to approve the September, 2017 Vouchers. D. McKenna seconded. P. Gier reviewed the two farm payments which are completion/closeouts as part of the STAIIP program. A vote was taken and the September vouchers were approved. Motion Carried.

Staff/Project Reports:

P. Gier reviewed recent outreach events he has participated in and his work with Cooperators. He and Board Members also discussed soil health.

P. Gier and A. Hinickle departed at 2:15pm.

Old Business:

- **RESOLUTION 2017-41 – Adoption of Amended Fiscal Policies.** J. Dennis made the motion to approve, D. McKenna seconded. K. Jackson reviewed the changes made to designated fund minimum balances. A vote was taken and the adoption of Resolution 2017-41 was accepted. Motion carried.

- **RESOLUTION 2017-42 – Adoption of Amended Employee Handbook.** D. Carey made the motion to approve, A. Ristow seconded. The Vision Policy was revised to reflect changes voted on in 2016. It was also revised to read it is available to full time employees in order to maintain consistency with the other benefits. A vote was taken and the adoption of Resolution 2017-42 was accepted. Motion carried.

New Business:

- Disability and Paid Family Leave Policy discussion. TCSWCD has looked into the possible addition of these policies and has requested price quotes from two insurance carriers. The varying level of benefits and costs were reviewed. The Board is interested in what Tompkins County provides and any consequences to offering the benefits. J. Negley and K. Jackson will reach out to Tompkins County Personnel and others to see what situations were encountered by offering the policies.

- Credit Card Acceptance discussion/Bank Account. TCSWCD has also looked into the option of offering credit card processing for payments such as the Tree Sale, Soil Group Worksheets, and Workshop Registrations. Quotes were obtained for web payments and for a dedicated iPad for swiping or manual entry. In either case, a separate bank account would be opened strictly for credit card processing. TCSWCD has also reached out to the County to see if they are able to create web forms for processing. There has not been a response as of this time. The Board unanimously decided to not host an Annual Tree and Shrub Sale Event. It is not financially profitable, and labor intensive. They also felt the sale took away from local nursery businesses. The Board would rather use resources to develop another program to assist conservation and provide more outreach. As for offering payment by credit cards, the Board would like TCSWCD to research what other Soil and Water Conservation Districts are providing. K. Jackson will follow up with this information.

- Annual Tree & Shrub Sale discussion. Discussion was held with the Credit Card Acceptance discussion. The decision to not host the event was made.

- **RESOLUTION 2017-43 – Entering into Contract Agreement with the Community Science Institute to fund a water quality project with FLOWPA FY 15-16 funds under contract #C305139-1516 held by Oswego County Soil and Water Conservation District for NYSDEC.** D. McKenna made the motion to approve, J. Dennis seconded. This contract would assist the Water Resource Council in monitoring data ahead of the new TMDL model. The lake would be monitored in six locations and data would be entered into a public database to establish a baseline reading. The Board agreed the more data available, the better. A vote was taken and the adoption of Resolution 2017-43 was accepted. Motion carried.
Announcements/Meetings:

J. Negley will contact A. Teeter to schedule a Safety Committee Meeting. He will also work on creating a PowerPoint presentation for training staff, interns, and volunteers.

J. Negley will be attending the NYACD Annual Meeting in October and encouraged Board Members to attend. They should let K. Jackson know by the next day if they would like to register for the meeting.

A Fall Tire Recycling Event has been confirmed for October 14th in the Town of Enfield. The Town has been active in wanting to promote the event as much as possible. K. Jackson is in the process of getting an ad in their newsletter, publishing an ad in The Shopper, and getting flyers laminated for posting in local business.

P. Barry and B. Goodrich departed at 1:48pm.

Executive Session

J. Dennis made a motion to go into Executive Session at 3:13pm to discuss personnel matters – to appoint a Water Resource Engineer. D. Carey seconded. J. Dennis made the motion to exit Executive Session at 3:20pm. A. Ristow seconded. Carried. A vote was taken and the hiring of Thomas Mallory was approved according to the terms in a prepared Offer Letter. Motion carried.

The next meeting date is October 2, 2017

• Credit Card Acceptance discussion/Bank Account. K. Jackson distributed the results of a survey Tioga County SWCD requested in September. Tioga County SWCD was also interested in how other Districts were handling accepting credit cards, the associated fees, and what service they were using. Since TCSWCD will not be hosting a Plant Sale this coming spring, there is not an urgent need to enroll in a credit card program. However, after the Board has a chance to review the responses, the District would like to have the capability to accept cards for Soil Group Worksheets, Workshops, and other earned income programs. K. Jackson and J. Negley will also be meeting with the County at the end of the month to discuss the use of Laserfiche products as an option. Discussions will continue at the next meeting.
