Summons from Ichthyological Associates – A copy of a summons was received on January 12th by the District dated November 22nd which has been forwarded to the County Attorney’s office. The background is that an agreed upon price for services of monitoring Hydrilla in the Cayuga Inlet was set by the Hydrilla Task Force and paid by the District to all of the monitoring entities. Ichthyological Associates submitted an invoice well above this agreed upon price and is now
trying to sue the District for this money...approximately $13,000. The county attorney is handling this matter and will keep the District Manager and the Board up to speed if any action is necessary from them. Jonathan Wood did mention to ask the District's insurance agent if any costs like this would be covered.

Part B reimbursement will be released in 2014 for completion of a project in the amount of $6,000 and have 18 months to do the project. Part C Performance Measures will be reimbursed at the end of 2014, but must be earned this year. Jeff announced his retirement on May 7th of 2014.

P. Barry gave an overview of his written report provided before the start of the meeting.

Ken Isaman from Robert Sweeney Agency provided an overview of the insurance coverage the District currently has. The questions raised last month were presented to Ken about the increased liabilities charge and he answered that these were a result of added equipment and increasing insurance on survey equipment. Nate Leonard from the NYS Recycling Agricultural Plastics Project (RAPP) presented the program and some of the liability concerns related to this program for the District. The District entered into a cooperator’s agreement in 2010 with the NYSDEC to help fund this program and the District is responsible for insuring the baler that goes outside of the county to bale agricultural plastics. There are some liability concerns associated with the baler that Nate addressed to the board. The ultimate goal of the RAPP project might be to get the solid waste department more involved and provide a centralized location for collection of this waste product. In the meantime, the District needs to be cognizant of the liabilities this program presents to the District and what role the District should play with this program in the future.

This is the amount that was being requested to be approved for payment to Zimmerman Construction through an assignment of payment. Once the contract is completely closed out with the New York State Ag and Markets, Cal can receive the remainder of the funds (approximately $37,000) and the District can recoup staff time out of the grant once a voucher is approved by the NYS Ag and Markets and NYS Comptroller. R. Updike moved the payment of $46,059.00 to Zimmerman Construction. A. Teeter Seconded. No discussion. Carried.

Broome County had asked if the District was able to pay this and requested either payment or notification that we could not and they could get it off of their books. It was the recommendation of the District Manager to pay this invoice to clean up the checks. R. Updike moved to pay $3,823.00 to Broome County to pay the outstanding invoice. D. McKenna Seconded. Carried.

Repayment of unspent funds on NYS Agricultural grants – Payments to NYS in the Amount of $20,793.04 for contract # C700830, $31,084.35 for contract #C700870, $62,318.38 for contract #C700893 and $3,495.09 for contract #C700894 was recommended to the Board by the District Manager for repayment of 2 contracts back to State in full (C700870 and C700893) and 1 partial payment to continue the repayment plan back to NYS Ag and Markets according to the grant repayment schedule developed last year by the Board, Les Travis and NYS Ag and Markets. This will leave 1 open contract with NYS Ag and Markets that will be part of the installment plan to be set up between the District/Ag and Markets and NYS Comptroller. The NYS Attorney General’s office will not be involved and interest payments will not be applied to this repayment of funds. R.
