7. Jeff Ten Eyck gave a report on the status of the grant closeouts. He reported that the District successfully completed the four items in the letter sent by Ag and Markets, in the timeframe given for those completions. Jeff said we should expect another letter very soon. He also went on to say that although contracts for AgNPS grants state that each grant should be kept in a separate account, the state has not enforced this but will be doing so in the near future. He also said the state was hearing from one farmer who has invested a large amount of money on a grant and is wondering about payment. Craig said he should have that done very soon and a payment made to this individual. There was also a question about a $12,000 payment to another farm. Craig stated this did not come out of AgNPS funds but was paid out of other funding.

8. Brief discussion on the Strategic Action Plan. It was determined that dan and Alan will work with staff to further develop the plan. Time and date to be determined.

9. Policies that were tabled last meeting:
   a. Director Attendance: moved by Frank P., second Alan T.; Approved
   b. Procurement: moved by Frank, second Pat P. Approved
   c. Bio-security: moved by Frank P. second Pat P. Approved
   d. Agency Owned/Leased Vehicle Moved by Pat P. second Alan T. Approved w/ suggested changes
   e. Personnel Policy moved by Pat P. to table this until the County completes revisions to its personnel policy. Second by Frank P. approved

10. Van discussion; Pat announced she is moving forward with the old Board of Elections Van and that the county will turn that over to the District at no cost. Craig expressed his concern for safety of the vehicle, considering its age and the fact that it sits in one place so much of the time. Craig also said that it has been apparent that there has been an ongoing, and very noticeable fluid leak under the vehicle. He also said that vehicle really doesn’t meet the needs of the District
and is concerned with the poor gas mileage and potential maintenance costs, due to the age of the vehicle. Pat pointed out that the vehicle has relatively low mileage and that the District’s current fiscal condition does not permit the lease or purchase of a new vehicle. It was decided to have the county take the vehicle and service it (considering it has been over a year since it was last serviced) and check it over for potential problems before the District accepts it. Pat and Frank will deal with that at the county level.

11. Craig announced the Hydrilla program Manager will be starting on March 4, and that District will be paid $8,000 annually for that person being housed here at the District.

12. **Status of vacant positions:** Craig reported to the BOD that the Secretary/Treasurer job announcement is posted.

13. **The Annual Water Quality symposium** annual training for District employees) Craig presented staff’s wishes for training options. Even though there is a budget line for training in the approved 2013 budget the Board decided that due to the severe budget deficit no one will be approved to attend any sessions this year. The Board informally agreed that if any staff member wished to attend on his/her own time and at his/her own expense he/she could do so. The total amount requested exceeded the amount in the budget for training. Craig and Jeff T. both tried to say maybe the Board could look at a compromise with staff scaling down their individual requests but the decision to not pay for any training at this time stood. Craig vigorously disagreed with this decision and lobbied on behalf of the staff and the importance of training, but to no avail.

Dan Carey, Vice Chair  Jeff Ten Eyck, Ag and Markets

1. **Call to Order:** Meeting called to order at 12:40 PM by Ron Updike Chair

2. **Additions to the Agenda/Announcements:** Frank spoke about the WRC sending letters to legislators requesting that USGS stream gages, targeted for closure in the Upper Susquehanna Watershed, should remain on line because of their importance in gathering data for the TMDL, and for data gathering during storm events.

3. **Approval of February Minutes:** Approved with corrections

4. **Vouchers Ab-2-13:** After discussion and questions on individual items Pat P. made a motion to accept; Second by Alan T.

5. **Old Business:** Discussion about the Corrective Action Plan vs. the Strategic Action Plan and how these both are important to complete. Also it was discussed as to how these go together and to some degree coincide.

   Jeff T. spoke about the plan moving forward on completing the AgNPS grant close outs in accordance with the letter from Ag and Markets. Jeff said he is here to help in any way he can. Jeff also reiterated that funds for each grant must now be placed in individual accounts. That had been in the contract language but had been ignored, but that has now changed. Jeff also talked about the Rd. 17 grant that Cal Snow is supposed to receive funding from. He said the District needs to get the Plan of Work in as quickly as possible so a contract- can potentially be developed.

   Pat P. explained to the rest of the Board the status of the van from the county. She said the van had been taken to County Highway and all necessary maintenance had been completed (oil leak fixed, service). Pat went on to say the County is ready to turn the van over to the District at no cost and then it will be the District’s decision to do with whatever it wishes. Another Board member asked if that meant it could be sold once the District takes possession, if the Board deemed it necessary. Pat responded that is correct, it is the District’s decision once it takes possession. Dan C. made a motion to
accept the van from the county, Alan Teeter second. Ron U. added a friendly amendment adding to accept only after it passes NYS inspection. It was acknowledged that District must own the vehicle to get it inspected and that cannot happen until title is transferred. Approved with the amendment.

**New Business:**
James Balyszak entered the meeting to introduce himself as the newly hired Hydrilla Program Manager. James gave a brief description of his background and said he is very excited to be here and working with the Task Force.

Craig said interviews for the Secretary/Treasurer position are being scheduled and it is his, and Ron's hope the position filled before the next meeting. Pat asked to go on record that she felt we should have hired a temporary person in the interim and wondered why that didn't happen. Craig responded that he felt the per hour rate given to Kelly Services was too high and that was one of the reasons no one was hired. Craig went on to say that Beth Thorpe has been coming in when she is able to fill in the gaps. Craig said he doing the bulk of the everyday work that he knows how to do and leaves the other work for Beth.

Frank P. made a motion that the Board pass a resolution that will give the county direct oversight of the finances of the District until the financial issues facing the District are resolved. Dan C. Second. Carried. Frank P. said he will inform Joe Mareane, County Administrator of the passage of this motion.

2. District Manager position – L. Travis offered the next steps towards hiring a new district manager. Due to a tight budget, L. Travis recommends to promote from within. The position will be posted on the County Personnel website. Any staff individuals that meet minimum qualifications and wish to apply will have until end of business, Monday, August 19 to apply. Personnel Committee and the board will interview the week of August 25. P. Pryor moved to follow the steps presented. Seconded by D. Carey. Carried.

3. County Highway housing update – L. Travis met with Arel DeMato, County Facilities manager. It continues to be viewed as a positive move for the district. There are many advantages: housed with other county agencies, closer relationship with county highway, reduced operating costs and a secure facility to name a few. Different individuals in county government are also positive. A concern raised: where would equipment be stored? It is likely that an arrangement could be made with the town of Enfield highway.

4. Staff recognition: L. Travis shared the Commendation letter prepared by F. Proto. A copy will be placed in each employee’s personnel folder. This letter was approved at the July 8, 2013 board meeting.

New Business

1. Tompkins County SWCD Management Plan – was provided to the board. This plan was requested by NYS Agriculture and Markets to demonstrate that the district had a plan in
place that addresses many of the issues that have put the district in the difficult financial situation it is presently facing. It was reviewed with Mike Latham and Brian Steinmuller, Agriculture and Markets, Division of Land and Water and Joe Mareane, Tompkins County Administrator. It was generally accepted. The management plan needs to be accepted by Agriculture and Markets before any funds can be released. The plan laid out the deficit reduction plan to pay back the unused grant funds due to the state. The final closeouts of the six outstanding agriculture grants have been completed. In addition, the Fuller Farm grant has been completed and the final report filed. There were a great number of problems doing the final reports. Many staff hours were spent to get the numbers and documents to an acceptable level. The Fuller farm will receive a final payment, however, they may challenge that they are due more payment.

2. No-till Drill was discussed. A recommendation was presented to the board to sell the no till drill. D. Carey moved to sell the no-till drill at a minimum bid of $2500. Seconded by A. Teeter. Carried.

(A. Teeter left the meeting at 2:30 pm. A quorum was present.)

3. FOLLOWPA contract (SFY 2012-2013 – Contract #C304743-1213) – P. Pryor moved to have the District Manager sign the contract. Seconded by D. Carey. Carried.

5. M & T Signature change needed to close the account – P. Pryor moved to have the chairman sign the signature card. Seconded by D. Carey. Carried.

7. FOLLOWPA closeouts – J. Negley has been able to document sufficient expenses to be able to closeout two contracts.

8. Town of Caroline & FEMA closeout – the town has closed the FEMA grant. The county advanced Town of Caroline $70000 to complete the work. The funds were passed through the district. The T of Caroline has returned $61,428 to us. The amount used to complete the work. The district must make up the unused funds - $8572. When this final payment is made there will be $758.25 left in the multi savings account.

9. Employee Health Insurance Discussion:
   a) December 2012 – Board approved offering both individual and family coverage at 80/20.
   b) Presently, 2 employees plus the former district manager are under the individual plan.
      a. Individual - $725.11/month $580.09 - $145.02  District share = 6961.08/yr
      b. Family - $1571.51/month $1257.21 - 314.30  District share = 15086.50/yr
   c) The district cannot afford to provide the family coverage. The total potential cost is prohibitive. Should it continue to be an option and if any staff person took the option, there is not sufficient income to meet the obligation and keep all the present staff.
   d) Recommendation: Establish a set dollar amount that each staff person could use to purchase the policy of his/her choice. This option does not limit him/her to either an individual policy or a family policy. Rather it would allow him/her to choose a policy.
from the consortium menu. The district would provide xx dollars and the remaining cost would be the employees.

e) Presently, the individual cost to the district is $6961.06/year.

f) Recommendation: the district offer $7000/year towards the cost of a health insurance policy.

P. Pryor moved that the Tompkins County SWCD offer its employees $7000 per year towards the cost of a health insurance plan of his/her choice from The Greater Tompkins County Municipal Health Insurance Consortium. The employee would be responsible for the balance of the cost of the plan chosen. Seconded by D. Carey. Carried.

10. 2013 and 2014 Budget – L. Travis reviewed his budget recommendation for financing the rest of 2013. The district should end the year in the black. L. Travis submitted the county appropriation request for 2014. The request is for $132036. The presentation to Joe Mareane went well.

D. Carey moved to adjourn at 3:02 pm

The December 2013 projected budget had an average of expenses driven by a $55,677 retirement bill due on December 15th. It is anticipated that the District will not be able to pay this bill by the December 15th deadline and will have to pay this by February 15th with a $500 penalty payment. This will be paid through the County appropriation that is anticipated on January 15th as promised to J. Negley by Rick Schneider at the county finance department. It will also be investigated by J. Negley to identify whether reimbursement is due to the District from 2012 retirement payment in order to reduce this bill.
