Tompkins County Overview

Tompkins County is located in the south central portion of New York State at the south end of Cayuga Lake. Upon its founding in 1817, the county was named after Daniel D. Tompkins, the 4th Governor of New York and the 6th Vice President of the United States.

As of the 2010 Census, the County has a population of 101,564 and a land mass of 460 square miles; equaling a population density of 221 people per square mile.

Unlike most other counties in New York State, Tompkins County has enjoyed population growth over the last decade. The presence of several large institutions of higher education, including Cornell University, Ithaca College, and Tompkins-Cortland Community College, has provided a degree of population and economic stability that distinguishes the County from many other areas of the State.

The County has an extensive transit network anchored by public bus system, Tompkins County Area Transit (TCAT), and the Ithaca Tompkins Regional Airport. The County is served by several major State highways. The Ithaca Bus Terminal also connects the area to the surrounding regions and has direct service to New York City.

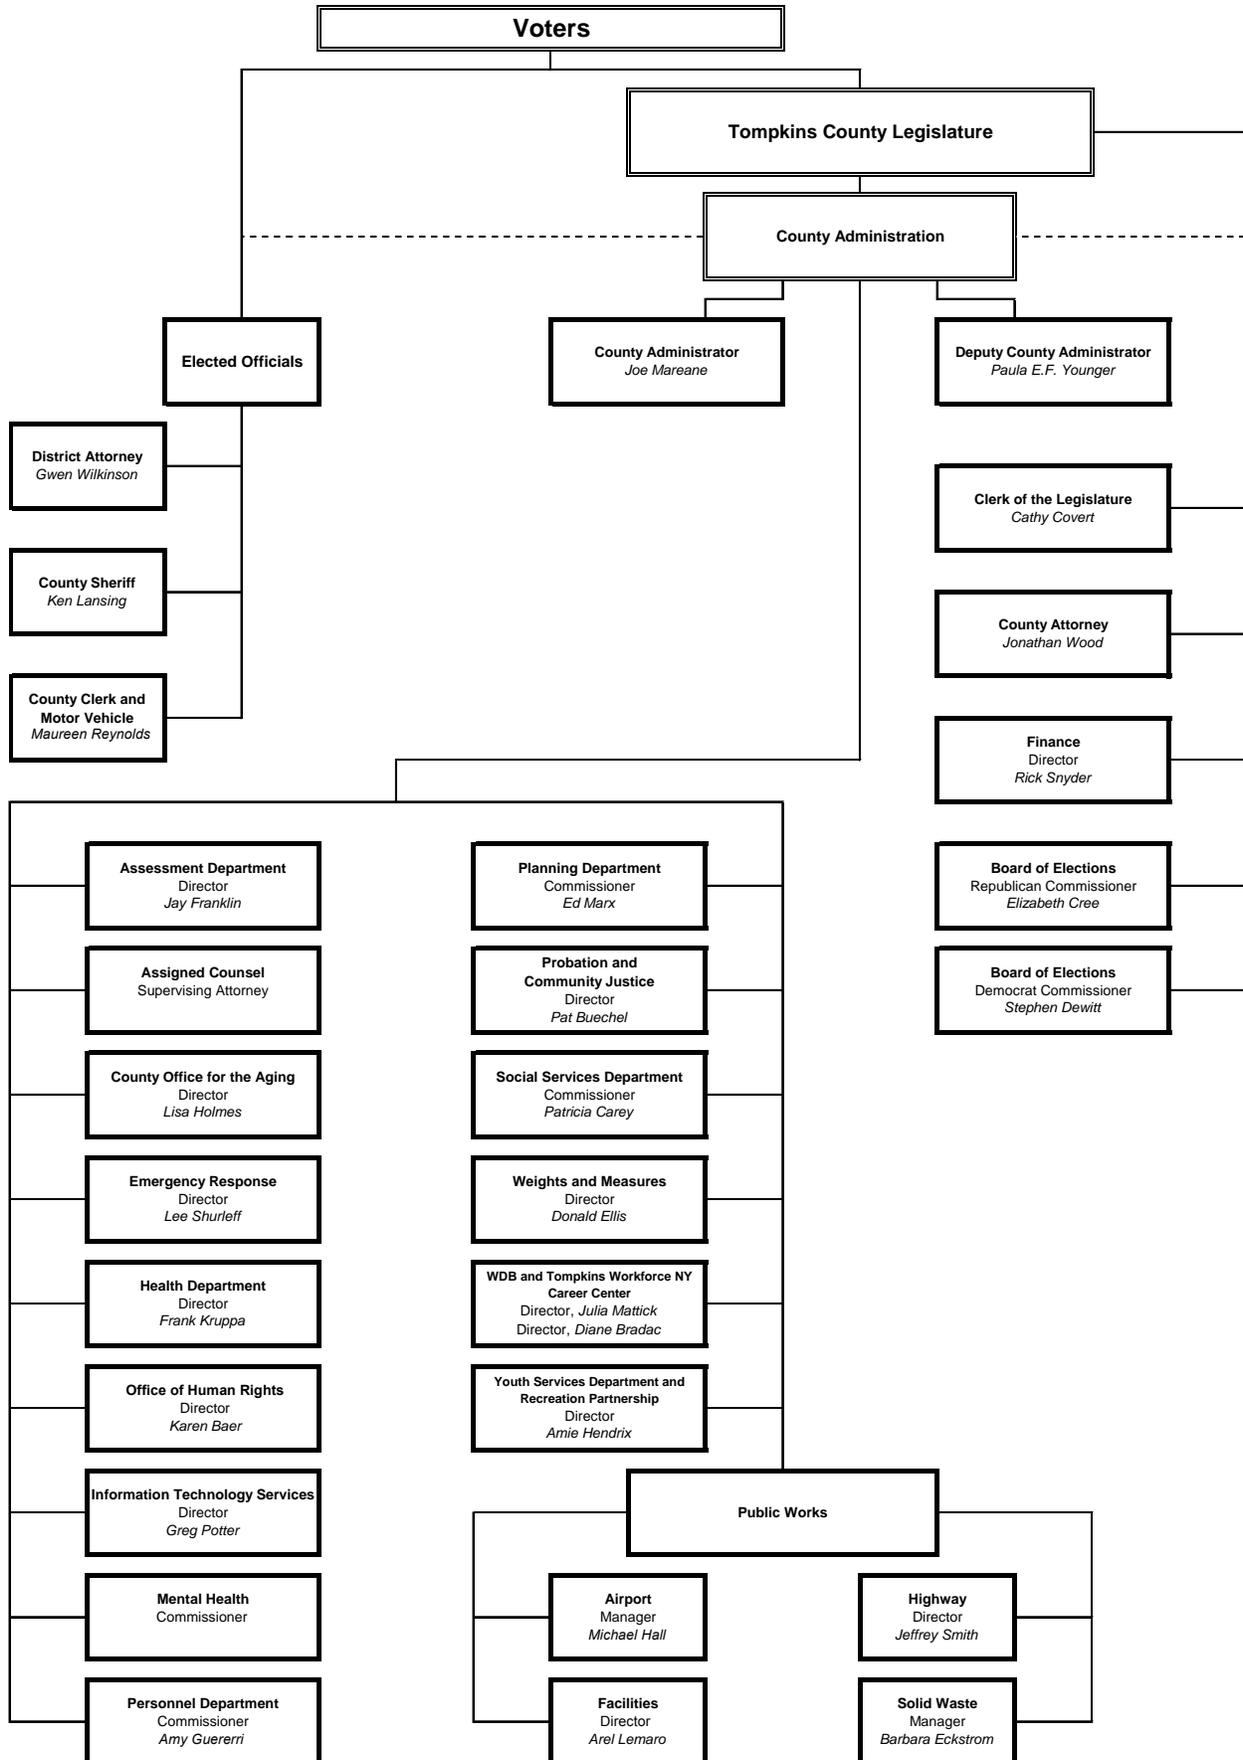

Within the county, there are five local newspapers that are published from a daily to a weekly basis. These include: The Ithaca Journal [1814, daily], The Cornell Daily Sun [1880, daily], The Ithacan [1932, weekly], and The Ithaca Times [1979, weekly], and the Tompkins Weekly [2006, weekly]. The Cornell Daily Sun and The Ithacan are student-run publications through Cornell University and Ithaca College respectively.

Tompkins County is governed under home rule, which provides for the separation of the Legislative and Executive Branches of government. The Tompkins County Charter was approved in 1968 and took effect in 1970. The County has a legislature-administrator form of government where a 14-member legislature elected from single member districts appoints a County Administrator who “oversees and coordinates the operations of county government to successfully carry out the policies of the County Legislature.”¹ Legislators are elected to four year terms. Other elected officials include the District Attorney, Sheriff, and County Clerk.

The County is composed of: nine townships – Lansing, Groton, Dryden, Caroline, Danby, Newfield, Enfield, Ulysses, and Ithaca; six villages – Cayuga Heights, Dryden, Freeville, Groton, Lansing, and Trumansburg; and one city – City of Ithaca, which is also the county seat with a population of 30,014.

* The 2020 budget for this project is substantially funded with federal and state reimbursements and will be undertaken only if such reimbursements are available. The County will initially support the total cost with Bond Anticipation Notes until the project is complete and has received the anticipated federal and state aid.

** This project is substantially funded by federal and state reimbursements and aid requested from Cornell University. If institutional aid is not received, a segment of Ellis Hollow Road from Dodge Road to Game Farm Road will not be undertaken.

*** These projects are substantially funded with user fees and federal and state aid reimbursements and will be undertaken only if such support is available. The airport will fund the remaining share of the projects with revenue generated by the airport (no effect on property taxes.)

**** These projects will be supported by revenue generated by the Solid Waste Division, including state aid that may be available.

Project Description

Years of under funding maintenance budgets and under investing in County owned facilities have caused a significant backlog of deferred maintenance. This request is intended to address the backlog of deferred maintenance that currently exists in the County's facilities and to accomplish it over the next several years.

This is a short-term remedial program of deferred maintenance reduction. Once completed ongoing facility maintenance needs in future years will need to be addressed. If on-going needs are not addressed, the county will likely be faced with the same problem in future years. Funds will be used to correct deficiencies on facilities in worse condition in order to prevent further and frequently accelerating deterioration.

In the Updated 2013 Capital Improvement Plan, \$4 million was to be invested in these projects over a seven year period from 2014-2020. (\$800,000/year in 2014-2016 followed by \$800,000/year in 2019-20). It is proposed that the same \$4 million be invested over a five, rather than seven, year period from 2014-2018. The two year "pause" in investments would occur in 2019-20.

Project Description

The Tompkins County Health Department does not currently have handicap or stroller access from the nearest TCAT bus stop. We have clients that are forced to use the entry road from Brown Road as pedestrian access because the sidewalk does not have cutouts to allow wheelchairs or strollers. This capital project would strengthen the access road from Brown Road as well as the parking lot at the Health Department to allow a TCAT bus stop to be created at the front door. We have a large number of clients that use or would use public transportation. In particular our WIC program has successfully advertised on the TACT buses to attract future participants. The challenge of not being located downtown has been addressed by many Health Department programs in many different ways. Bus access will make our facility more accessible to our clients.

Total Local:	\$1,658,143	\$368,143	\$7,000	\$137,000	\$0	\$0	\$1,146,000

Project Description

Phased reconstruction of Coddington Road from the Ithaca/Danby town line to the City line. Reconstruction will address deteriorated pavement conditions and inadequate drainage, as well as intersection and general sight distance safety deficiencies. An enclosed storm sewer system will be installed where needed to facilitate preservation of significant trees and landscaping and limit right-of-way impacts. Other improvements will benefit pedestrians and bicyclists, including a sidewalk in the vicinity of Ithaca College.

The first phase of construction, now scheduled for 2017, will provide safety improvements at the Burns and East King Road intersections. Other phases are delayed because of limited federal funding and will not be undertaken if such funding is not available. Future phases include pedestrian and bicycle accommodations.

Project Description

Because of a very deteriorated pavement condition and heavy vehicular use, Ellis Hollow Road requires pavement, shoulder, and drainage reconstruction to accommodate its multi-modal users between Pine Tree Road and Thomas Road.

The cost of the project has increased since its inception in 2000, so construction is being done in phases. Phase 1 built from Thomas Road to approximately 1000 feet west of Genung Road in 2010-11. Proposed funding from Cornell's Community Transportation Initiative was to have supplemented construction of Phase 2, but its inavailability forced the shortening of phase 2 to east of Dodge Road instead of completion to Game Farm Road. In 2013, the County was granted federal funding for rehabilitation from Game Farm Road to Pine Tree Road, a third phase of this project. Reconstruction from Dodge Road to Game Farm Road is now proposed to be concurrent with the phase 3/federal aid work. Support from Cornell University is included in the Phase 3 estimate. If that support is not provided, there will not be adequate funding to improve the segment of road between Game Farm Road and Dodge Road.

Project Description

Design and construction of a two-lane replacement for a 95-year old, one-lane, 15-ton posted, deteriorated metal truss bridge in the Town of Dryden. NYSDOT has deemed the bridge eligible for National historic registration and historic preservation interests will be considered in the project. The project would be 20% funded by the Town of Dryden.

Project Description

In partnership with the United States Geological Survey, Tompkins County initiated an aquifer study program to help protect Tompkins County's groundwater resources and drinking water supplies. County funds from this program leverage Federal funds to conduct consecutive studies of individual aquifers in the County. Participating municipalities also provide a portion of the necessary funding. The products of the studies are unique to each aquifer and generally include investigation of surface water and groundwater interaction, groundwater movement, and vulnerability of the respective groundwater resources.

Project Description

The Tompkins County Corrections Division, due to a massive system failure, replaced its previous jail camera system with an updated system on the recommendation of County IT and County Facilities. The new system, Salient, was implemented by Westfire Systems, Inc in May of 2014. The system is designed to incorporate IP cameras, with limited backward capabilities for analog cameras. The existing analog cameras are dated, no longer supported, black/white, and have limited image quality. There are approximately 50 cameras that canvas the Public Safety Building, of which only 2 have been replaced through immediate needs based on failures. These new IP cameras provide optimum security benefits to operation of the County Jail and the safety of its employees.
