

New York State PrEP/PEP Provider Voluntary Directory

In an effort to increase access to HIV pre-exposure prophylaxis (PrEP) and post-exposure prophylaxis (PEP), the New York State Department of Health AIDS Institute (NYSDOH AI) is compiling a list of providers that prescribe PrEP/PEP for a voluntary directory. The NYSDOH AI supports the addition of PrEP/PEP to the menu of evidence-based interventions to prevent HIV transmission.

PrEP is the use of anti-HIV medications as a form of HIV prevention. Many clinics now offer PrEP to patients who have ongoing behavior that places them at high risk for HIV infection.

PEP is the use of anti-HIV medications as a form of HIV prevention for individuals exposed to HIV.

NYS Medicaid covers Truvada[®] for pre-exposure prophylaxis, however; pre-approval is required. The patient must have an HIV negative test documented and may only receive a 30 day supply of medication with two refills. Most insurance plans will cover Truvada[®]. Uninsured patients may receive Truvada[®] through the Gilead patient assistance program. (<https://start.truvada.com/>)

Participation in this public directory is voluntary. Inclusion in this directory does not confer any endorsement by the NYSDOH nor does it establish NYSDOH credentialing or certification in a specialty.

For more information visit <http://www.health.ny.gov/diseases/aids/general/pep/index.htm>
