- [REDACTED]: [Group Expectations Reminder](#)
- Josh: Break out sessions (80 minutes) for [Call Types Google Poll](#)
 - Areas: Armed, Unarmed, Co-response, and alternative response buckets
 - Goal is to get through 66 call types, gut check - poll - not final! We are bringing in TA's to explain the ones we do not align on.
- Notes: Breakout #2 - Niles led - reaffirmed - this is not final, just a gut check - I went through all of these myself to test, it is doable. The call types have been reviewed and approved by the deputy chief.
 - Q's:
 - [REDACTED] - what is an alternative response?
 - Niles: something that can be handled through technology
 - [REDACTED] Fraud - different circumstances - Identity theft vs. people using deception
 - Niles: use your gut response, we will discuss how this might need broken down and why
 - [REDACTED] checked in - if going too fast slow us down
 - [REDACTED] Unclassified - very vague - it could run the gamut
 - Niles: Use your gut - we will revisit this

- [REDACTED] Escort - can be people with bank bags who need escorted too, not just parades and funerals
 - Niles: we are going with the description the deputy chief gave
- Josh group - break out notes:
 - Domestic example – [REDACTED] said, what if a civilian responds and we also send a cop but have the cop stay around the corner. I advised this is an example of a co-response model since both resources are being utilized.
 - In progress calls?-shoplifter in custody for example vs violent crime in progress.
- [REDACTED] No Recap today, and email will be sent after the meeting w/highlights of results.
- [REDACTED] suggested that we send the poll and call type example sheet with a deadline to complete to Amir, Savannah, Yasmin who could not attend. [ACTION]
